EXCEL 736040

11.5% Full and Fresh

Starting, Growing, Holding Calves to Give Depth of Body and Spring of Ribs

A fiber filled ration to give your calf the depth of body and spring of rib that is needed to compete. High beneficial fibers from cottonseed hulls, beet pulp shreds, and alfalfa. A 11.5% protein level combined with natural protein and non-protein nitrogen (urea). Designed to maximize protein to feed the rumen bacteria. Same levels of the proteinated mineral package with vitamins as in our grower and finishing rations to promote same immune response and fortification that is needed to maintain and promote optimum health. Prebiotics and probiotics added to promote superior digestion and promote a healthy gut micro flora.. TDN:

EXCEL 7367-BO

SURE AND SOUND

Starting, Grower Ration

A feed so versatile that depending on your particular breed, you can use this feed as a starter, grower or as a finishing ration for your show calf. This 11.5% protein and 14% fiber feed contains 36% steam flaked corn for increased energy. Steamed flaked barley and oats to maintain growth and cover that is desired by all judges. EXCEL Sure and Sound has an above average level of TDN at 65%. Rumen function is aided by effective fiber supplied by cottonseed hulls. Yeast cultures, probiotic and prebiotics, proteinated minerals, essential oils added to maintain proper gut health and nutrient absorption. TDN:65

A yeast culture based on *Saccharomyces cerevisiae* strain 1026, a strain specifically selected for its influence on animal performance.

Maintains gut health by promoting good bacteria and capturing bad bacteria by building natural defenses by maximizing animal performance.

Proteinated trace minerals, zinc, copper, manganese, cobalt providing nutritionally important mineral nutrition as close to nature as possible.

An exclusive form of organic selenium labeled as selenium yeast. Absorbed and metabolized as an amino acid and works with vitamin E to form a powerful antioxidant.

A source of viable microorganisms that support gut health over all animal performance by providing beneficial intestinal microflora

Keeps manure odor and ammonia at levels conducive to maintaining respiratory health. Creates a healthy environment with less respiratory problems.

A specialized strain of *Aspergillus Oryzae* to promote rumen efficiency as a prebiotic. Increases rumen microbes and stimulates rumen fungi for increased digestion.
