Ful-O-Pen Beef Limiter feeds are specially designed to help limit consumption where restricting intake is needed. Limiting source is with salt. Rule of thumb is a grown cow can eat 4# of salt a day. When using these rations on older cows and bulls, start with 7415 Limiter 15. This will acclimate the stock to the feed and subsequent loads you may go to the 7410 Limiter 10 until the desired consumption is reached. Maximum consumption is 2% of bodyweight.

BEEF LIMITER ATTRIBUTES:

- Limiting Amounts:5% salt; 10% salt; 15% salt
- Medications:
 BAMBERMYCINS: for feed efficiency and weight gain.
- All corn based rations
- + 65% TDN
- 12% Protein for growth
- Necessary Fibers
 Cottonseed Hulls: for
 rumen scratch factor content and unidentified
 growth factors.
