

Ful-O-Pep Knockout Show Pig Feeds are formulated to help produce a winner in today's livestock shows! Utilizing the knowledge of swine specialists, Knockout's three formulas are centered on balanced amino acid and fat ratios.

**Start them Fast,
Grow them Steady,
And Finish them to the End Win!**

Knockout Starter SP101 is a very palatable 1/8" pellet that will get them on feed quick. It is packed with the correct amino acid profile and fat levels to get them to growth stage.

Knockout Grower SP201 pays particular attention to the amino acid profile to guarantee that each day produces growth. Maximum growth gains are achieved with proper energy levels derived from fats and grains.

Knockout Finisher SP301 has an increased energy level to give proper fat deposits and muscling to finish the pig for show, along with a moderate protein level.

Enclosed you will find feeding directions for your show pig. Your animal has its own genetic potential and feed adjustments may be necessary if determined by the look of the animal (body condition) and the size (weight) of the animal.

Sure Champ Extreme

A pelleted, daily supplement with the Amaferm® advantage for show livestock that can be top-dressed or mixed in the ration to promote appetite and digestive health. Includes ingredients designed to help support animals during extreme temperatures and support hoof and coat care. Also contains garlic, a natural insect repellent.

Sure Champ Spark

A pelleted, concentrated daily supplement with the Amaferm® advantage for show livestock that can be top-dressed or mixed in the ration to drive appetite to higher levels and improve digestive health. Contains Bio-Mos to capture bad bacteria.

+ Amaferm® is a natural prebiotic designed to maximize the nutritional value of feed. It is research-proven to increase water and feed intake. In addition, research shows that Amaferm decreases body temperature in heat-stressed animals.
