SHOW HEIFER COMPLETE Starting, Grower and Finishing Ration For Heifers

A Show Heifer ration with 15% corn so not to produce unwanted fat deposits in a breeding heifer. Extra oats and barley to maintain constant and consistent growth while maintaining a TDN of 63%. A 13% protein ration to build muscle while young and help burn off fat as the heifer reaches show weight. All steam flaked grains to maximize rumen digestion. Cottonseed Hulls to supply the needed scratch factor effect. Same nutrient additives as the other

GUARANTEED ANALYSIS

Crude Protein min 13.0 %
Crude Fat min 3.5 %
Crude Fiber max 15.0 %

Sure Champ Show Supplements with Amaferm is available for all Show livestock.

EXCEL**7367-BO****SHOW CALF GROWER/FINISHER***Starting, Grower and Finishing Ration**Bovatec: 25 gαn/ton, Feed Efficiency and Weight Gain*

A feed so versatile that depending on your particular breed, you can use this feed as a starter, grower or as a finishing ration for your show calf. This 12.5% protein and 13% fiber feed contains 36% steam flaked corn for increased energy. Steamed flaked oats and barley to maintain growth and cover that is desired by all judges. EXCEL Show Grower/Finisher has an above average level of TDN at 67%. Rumen function is aided by effective fiber supplied by cottonseed hulls. Yeast cultures, probiotic and prebiotics, proteinated minerals added to maintain proper gut health and nutrient absorption.

EXCEL**7360****SHOW CALF EXPANDER***Starting and Finishing Calves to Give Depth of Body and Spring of Ribs*

A fiber filled ration to give your calf the depth of body and spring of rib that is need to compete. High beneficial fibers from cottonseed hulls, beet pulp shreds, and alfalfa. A 12% protein level combined with natural protein and non-protein nitrogen (urea). Designed to maximize protein to feed the rumen bacteria. Same levels of the proteinated mineral package with vitamins as in our grower and finishing rations to promote same immune response and fortification that is needed to maintain and promote optimum health. Prebiotics and probiotics added to promote superior digestion and promote a healthy gut micro flora.

POWER UP PERFORMANCE.
MAXIMIZE DIGESTIBILITY.

A yeast culture based on *Saccharomyces cerevisiae* strain 1026, a strain specifically selected for its influence on animal performance.

Maintains gut health by promoting good bacteria and capturing bad bacteria by building natural defenses by maximizing animal performance.

Proteinated trace minerals, zinc, copper, manganese, cobalt providing nutritionally important mineral nutrition as close to nature as possible.

An exclusive form of organic selenium labeled as selenium yeast. Absorbed and metabolized as an amino acid and works with vitamin E to form a powerful antioxidant.

A source of viable microorganisms that support gut health over-all animal performance by providing beneficial intestinal micro-flora

Keeps manure odor and ammonia at levels conducive to maintaining respiratory health. Creates a healthy environment with less respiratory problems.

A specialized strain of *Aspergillus Oryzae* to promote rumen efficiency as a prebiotic. Increases rumen microbes and stimulates rumen fungi for increased digestion.
