Ramsey EXCEL LAMB

ATTRIBUTES:

- **Protein Sources:** Soybean Meal Dried Distillers Grain for rumen digestion. Corn Gluten, Fish Meal and Blood Meal for bypass protein. Varied kinds of protein sources for an excellent amino acids balance to develop muscles and consistent growth.
- **Grain Sources:** Corn Chops, Steam Flaked Barley, Steam Flaked Oats, all used for a superior mixture of carbohydrates to supply the right amount of energy for just the right muscle definition.
- **Yeast Culture and Lactobacillus Acidophilus:** Added to aid in efficient rumen digestion. Aids in proper fiber digestion for optimal digestive performance.
- **Vitamin and Mineral Package:** An enhanced vitamin and mineral package added to aid in immune response, proper growth and reproductive health characteristic response.

Ful-O-Pep Feeds is excited to introduce a new product to the show lamb industry. Introducing Ramsey 15% Show Lamb Feed. Dr. Shawn Ramsey has been involved in the sheep industry for over 40 years. He received his B.S. from Texas A&M University and his M.S. and PhD from New Mexico State University and the U.S. Sheep Experiment Station in the area of sheep nutrition with special emphasis on protein metabolism and usage in the ruminant. He has developed the largest sheep and goat youth programs in the form of Lamb Camp and Goat Camp that strive to educate on all aspects of raising lambs and goats. Additionally, the Ramsey family, as well as numerous others in Brazos County have had much success hanging purple banners on the wall over the past 12 years as a result of feeding this specially formulated feed. Due to high demand and interest in this feed we are making this product available to all feeders. If you want to add that competitive nutritional edge to your show projects, give it a try!
