Ingredients

PROCESSED GRAIN BY-PRODUCTS, ROUGHAGE PRODUCTS (33%), GRAIN PRODUCTS, COTTONSEED MEAL, GROUND LIMESTONE, MOLASSES PRODUCTS, SALT, UREA, VITAMIN A SUPPLEMENT, VITAMIN D3 SUPPLEMENT, VITAMIN E SUPPLEMENT, ZINC SULFATE, CALCIUM CARBONATE, FERROUS CARBONATE, MANGANESE SULFATE, COPPER SULFATE, SODIUM SELENITE, ETHYLENEDIAMINE DIHYDRIODIDE, COBALT SULFATE, ASPERGILLUS ORYZAE FERMENTATION PRODUCT, HYDROLYZED YEAST, CORN DISTILLERS DRIED GRAIN SOLUBLES, DRIED KELP, YEAST CULTURE, FRUCTOOLIGOSACCHARIDE, NATURAL AND ARTIFICIAL FLAVORS, SELENIUM YEAST, YUCCA SCHIDIGERA EXTRACT, DRIED LACTOBACILLUS ACIDOPHILUS FERMENTATION PRODUCT, DRIED ENTEROCOCCUS FAECIUM FERMENTATION PRODUCT, DEXTROSE, SODIUM ALUMINOSILICATE, VITAMIN B12 SUPPLEMENT.

WARNING: DO NOT USE IN CALVES PRODUCED FOR VEAL. A WITHDRAWAL PERIOD HAS NOT BEEN ESTABLISHED FOR THIS PRODUCT IN PRE-RUMINATING CATTLE.

Directions

FEED CONTINUOUSLY AT A RATE OF NO LESS THAN 60 MG NOR MORE THAN 200 MG OF LASALOCID/HD/DAY. FEED THIS FEED FROM 4.0 TO 13.33 POUNDS DAILY TO SUPPLY THE REQUIRED AMOUNT OF LASALOCID. KEEP FRESH WATER AND FREE CHOICE MINERALS AVAILABLE AT ALL TIMES. FREE CHOICE HAY SHOULD BE ACCESSIBLE AT ALL TIMES. THIS FEED IS FED AS AN ALTERNATIVE TO THE VFD'S.

Starting January 1, 2017, ranchers will no longer be able to buy feeds containing any antibiotics. Producers will have to have a client patient relationship with their veterinarian in order to get a prescription for feed. The producer will have to have a veterinarian come out to see their animals and the vet can prescribe a feed that contains antibiotics. Then the producer takes the prescription to his feed dealer to "get it filled". The feed dealer will have to send a one time letter to the FDA, a Letter of Compliance, informing the FDA that they will be handling a VFD. The feed dealer will send the prescription to a feed manufacture and the manufacturer will also have to send a Letter of Compliance to the FDA. The feed will have to be used and mixed exactly as directed by the veterinarian. The maximum length of a prescription is 6 months. The producer, veterinarian, dealer and feed manufacturer will have to maintain records for two years on each prescription.

Ful-O-Pep Feeds has designed a proprietary Health Pak as an alternative to a VFD. The Health Pak will maintain an animal from getting sick. Plus it will also help in better feed conversions for better weight gain and performance. Ful-O-Pep Receiving Essentials has been designed to accomplish the void of a veterinarian script. Receiving Essentials has been proven to provide weaned calves or sick calves the right nutrients to develop health strong calves.

VFD Health Pak Contains:

- ⇒ **Mycotoxin Binders:** a micronutrient to "tie-up" toxins so it will not harm the animal.
- ⇒ **MOS:** A form of yeast that "absorbs" the harmful bacteria and passes thru the animal
- ⇒ **Essential Oils:** Secondary plant compounds used as an antimicrobial, antioxidant, and anti-inflammatory. Helps to increase water intake, flavoring agent, reduces protozoa in the rumen, improves nutrient absorption, increases bypass protein and vasodilator.
- ⇒ **Kelp:** Provides trace and ultra trace minerals to help promote skin and tissue growth and maintenance. Good source of iodine to help regulate metabolism.
- ⇒ **Prebiotics and Probiotics:** Live and dead yeast cells to improve digestion efficiency and metabolism. Enhances "good" bacteria to maintain healthy microbe levels.
- ⇒ **Yucca:** An antioxidant and anti-inflammatory to promote good blood flow. Decreases Ammonia.
- ⇒ **Vitamin and Minerals:** Selenium yeast as an antioxidant and repairs tissue damage from disease. Vitamin B12 maintains healthy skin, hair and hooves. Boost energy level. Improves blood pressure.
